

RC060

Constant Pressure Jet Pump

PREMIUM TRADE QUALITY

Suitable for small house supply and garden irrigation applications, this superior quality pressure pump is efficient, quiet, and economical to run. Certified for pumping potable water under Australian standard AS4020.

Code	Model	Power		Outlet		Maximum		Cable Length	No. of Outlets / Taps ³	Size LxWxH (mm)
		Amps	Watts	MM	Inch	L/min	Head (m)			
4819534	RC060	2.5	370	25	1"	57	33	3m	2 - 4	370x190x380

Suitable for a wide variety of domestic applications such as:

- Garden Irrigation
- Small house (1 bathroom) or cabin supply
- Suction lift applications
- Pressure boosting
- Ideally suited for 2 to 4 garden taps
- Clean water transfer

Features and Benefits

- Reliable, efficient power saving performance¹
- Automatic control - constant pressure⁴
- Run-dry protection and thermal overload protections to protect and extend the life of your pump
- Special function on the pressure controller that automatically checks for water every 24 hours after a run dry event.
- Save money, save power, save water!²
- AS4020 - Suitable for Potable Water

Construction

- Stainless steel housing, casing and shaft
- Carbon/ceramic mechanical seal
- IP44 Motor with Insulation Class B⁵
- Noryl jet, venturi, diffuser and impeller
- Quick plug pressure controller

¹ Compared with a 800w pump delivery 40L/min at 15m head. ² Save water, save money refers to conserving town supply water by utilizing rainwater. These claims are of a general nature and although we believe them to be true, they have not been verified by an independant testing authority. ³ Number of taps is suggested only. ⁴ With very slow water-flow the pump may stop and restart during use. ⁵ Install the pump under a cover.
