

RT75E

Constant Pressure Jet Pump

PREMIUM TRADE QUALITY

The Rain&Town jet pressure pump is suitable for small house supply and garden irrigation applications. European made, this superior quality pressure pump is efficient, quiet, and economical to run. Certified for pumping potable water under Australian standard AS4020.

Model	Power		Outlet		Rated Flow		Maximum Flow		No. of Taps	Weight	Size
	Amps	Watts	MM	Inch	L/min	Head (m)	L/min	Head (m)			LxWxH (mm)
RT75E	4.5	990	25	1"	31	24	75	48	5-8	9	400x180x390

Suitable for a wide variety of domestic and commercial applications:

- Water Tank Supply
- Clean Water Transfer
- Household Supply
- Rain to Mains Systems
- Garden Irrigation

Features and Benefits

- Automatic Operation pressure controller included
- Certified to AS4020 for use with potable water
- Suction lift capability up to 9m
- Carbon-Ceramic mechanical seal for durability
- Stainless steel pump body and motor shaft for corrosion resistance
- IP44 Protection Rating | IP52 Terminal Board Protection | Class F Insulation

Construction

- Stainless Steel 304 Pump Body, Shaft & Impellers
- Techno polymer diffuser, jet & venturi
- Brass barrel union
- Motor Bracket in die casting aluminium
- Carbon mechanical seals
